Here's a model that's bound to be a hit with everyone. It has it all...a made-up bed, a full-size front living room, with a Flexsteel sofa bed, extremely comfortable chairs and a pull-up table with laptop computer storage below.

This model is not only elegant, but the additional storage spaces and extended kitchen area makes it a palace for two, or adequate for a family of six if desired. Available is a comforter, with velcro attached sheets, which eliminates bed making problems for ever.
